Message: It is important to have a separate board for private companies. Our government states that small businesses is one of the answers to our economic problems and the accounting profession needs to help and take this very seriously. These companies have separate very important needs that has to be looked at in a different light. I started three succesful private companies. The management and investors need this for their ability to manage these companies. Harvey Shuster Executive who started Peachtree Software, which is still one of the largest software accounting packages used by these ocmpanies. Owner of VuKnowledge Media, Inc and CPA.
