Re: FAF Revised Proposal on GASB’s Scope of Authority – Consultation Process

Dear Mr. Diermeier:

The Association of Local Government Auditors (ALGA) appreciates the opportunity to respond to the Financial Accounting Foundation’s (FAF) Revised Proposal - GASB Scope of Authority: Consultation Process. Our organization represents 300 audit organizations, totaling more than 2,000 members. This topic is of interest to our members, and we encourage individual audit organizations and members to comment independently should they choose to do so.

We acknowledge there has been useful progress in the proposal, based on issues stakeholders raised. We appreciate the FAF seriously considering the input our organization and others provided. We feel the revised proposal strikes a better balance between FAF’s oversight of the GASB and trying to preserve GASB’s independence. As the Trustees are responsible for ensuring the GASB stays within its scope, the revised proposal establishes a structure to keep the FAF more involved. In addition, we are supportive of the changed role of the Oversight Committee to being more consultative in nature.

We still have concerns, however, about whether the revised proposal is really necessary and what the changes will mean for the GASB in practice. The revised proposal seems redundant to the rigorous process the FAF-appointed GASB already has in place and would add more time and expense in developing standards. The revised proposal is unclear as to how the consultative process would actually work and when and how the results of the consultation(s) would be made public. In addition, if the FAF feels it needs more oversight, we question why a similar proposal is not being considered for the FASB.
We appreciate the opportunity to respond to this proposal.

Respectfully Submitted,

Harriet Richardson  
Chair, Professional Issues Committee
