Dear Financial Accounting Foundation:

I urge the Financial Accounting Foundation to adopt the recommendations made by the Blue Ribbon Panel on Private Company Financial Reporting regarding differential standards and a separate standard-setting entity for private companies. Such historic change is necessary to effectively bring about sensible, useful financial reports for private companies and the users of their financial statements (such as bankers/lenders, insurers, venture capitalists and others).

I believe a systemic problem exists. Accounting standards have been and are driven by issues affecting public companies. Further, the panel was correct in that private companies are incurring significant unnecessary costs for GAAP financial statement preparation and audit, review or compilation services.

In addition, substantive differences in current and future standards for private companies, where appropriate, are necessary. Private company financial reporting, as it stands now, is too complex, embodies too much irrelevant information and is too costly and time-consuming given its benefits.

Further, a new, separate body with standard-setting authority must be established directly under FAF and not subject to FASB approval. Without such a body, the differences needed in the standards are unlikely to occur, just like with past committees and efforts.

The panel's report is based on a year of discussion, research efforts spanning 30 years and input from private companies and their financial statement users, among others. Differential standards and an autonomous standard-setting body to implement them for private companies are needed now.

Thank you.

Sincerely,

Teresa C. Browning, CPA
